

Ashutosh Kumar

Java Backend Developer | Spring Boot | Microservices | REST APIs | MySQL | AWS

+91-8210728770 | krashuu08@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Java Backend Developer with 4 years of experience designing and delivering scalable Spring Boot microservices for enterprise finance and healthcare platforms. Skilled in Java, Spring Boot, Spring Data JPA, REST API design, and relational data modeling with MySQL, backed by production exposure to CI/CD, AWS cloud deployment, and system integration testing. Delivered measurable gains in trade-processing reliability, query performance, and release velocity at Morgan Stanley's Thunderhead trade-processing platform, and mentored junior engineers to drive a 15% reduction in production defects.

PROFESSIONAL EXPERIENCE

Consultant, Full Stack Developer — Genpact India Pvt. Ltd.

Jul 2022 – Dec 2025

Project: Thunderhead (Morgan Stanley) — Enterprise Trade Processing Platform

Tech: Java, Spring Boot, Spring Data JPA, Microservices, REST APIs, MySQL, JPA/Hibernate, Node.js, GitHub Actions, GitHub Copilot

- **Designed and delivered** Spring Boot microservices for enterprise trade-processing workflows handling EQS and EQD asset classes; owned REST API contracts, JPA/Hibernate data access, and service integration end-to-end, and independently shipped features across SIT and production environments.
- **Applied database normalization and SQL query optimization** on MySQL trade and reference datasets, reducing query latency, improving data integrity, and supporting reliable trade-simulation testing across multiple asset classes.
- **Automated trade-simulation and validation pipelines** in the SIT environment using RECORD-based templates to define, extract, and verify trade data; accelerated authoring with GitHub Copilot and wired end-to-end validation into GitHub Actions, cutting manual trade-processing effort by 20%.
- **Built Node.js integration scripts** to bridge upstream and downstream trade systems, improving reliability and maintainability of cross-service data flows.
- **Mentored junior engineers** on design, implementation, debugging, and code reviews across the Java and Spring Boot stack, enforcing engineering standards and helping drive a 15% reduction in production defects.

Project: Click Therapeutics — Digital Healthcare Platform

Tech: JavaScript, REST APIs, Jest, GitHub Actions, ReactJS, React Native

- **Integrated frontend clients with backend REST APIs** across a digital-healthcare platform, collaborating with backend and product stakeholders to define request/response contracts and ship 15+ production features.
- **Strengthened release reliability** by configuring GitHub Actions pipelines for automated linting, testing, and build validation on every pull request, surfacing regressions 2 to 3 days earlier.
- **Expanded automated test coverage** by authoring 50+ Jest test cases against API-integrated components, contributing to a 20% reduction in user-reported defects.

TECHNICAL SKILLS

Languages: Java (11, 17), SQL, JavaScript (ES6+), TypeScript

Backend and Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Spring Web, REST APIs, Microservices, JPA, Hibernate, Node.js

Databases: MySQL, MongoDB; schema design, database normalization, indexing, SQL query optimization

Cloud and DevOps: AWS (EC2, S3, CloudWatch), Docker, Jenkins, GitHub Actions, CI/CD, Git, GitHub, Maven

Testing: JUnit, Mockito, integration testing, System Integration Testing (SIT), Jest, React Testing Library

AI-Assisted Development: GitHub Copilot (backend service and test-script authoring)

Frontend (secondary): ReactJS, React Native, Redux, HTML5, CSS3, Tailwind CSS, Material UI

Core CS and Practices: Data Structures and Algorithms, Object-Oriented Programming, Design Patterns, System Design, SDLC, Agile, Scrum

EDUCATION

B.Tech, Electronics and Communication Engineering — National Institute of Technology, Jamshedpur (CGPA: 7.25) 2018 – 2022

Senior Secondary — Harprasad Das Jain College, Ara (69.8%) 2016 – 2018

Secondary School — M.D. Carmel School, Ara (CGPA: 10.0) 2006 – 2016
